Carnarvon and Exmouth Depot Refurbishments

Refurbishing each site to improve and modernise

Horizon Power's Carnarvon and Exmouth Depots have had minor refurbishments and modifications over the years, but there is still more that needs to be done to modernise functionality and storage.

We're pushing forward with this project and will be engaging local suppliers, trades and the community to ensure money is being reinvested back into regional WA.

Project overview

The Carnarvon and Exmouth Refurbishment involves three distinct sub-projects:

- Carnarvon Depot refurbishment
- Carnarvon Store building
- Exmouth Laydown Yard refurbishment

These refurbishments will improve the space, storage, functionality, operations and utilisation of Horizon Power's depots and includes:

- Better customer service area for face to face engagement.
- Improved staff amenities and space utilisation.
- Improved storage of our assets and inventory.
- Upgrade of the technology at the Depot site.

Key information

Place

Carnarvon and Exmouth.
