## Refurbishing Horizon Power's Kununurra depot to improve customer and staff experience

Horizon Power's Kununurra Depot is one of the first buildings people see when they drive into Kununurra. The office was built in 1985, and despite some minor renovations over the years, the facilities are in need of refurbishment.

We'll be engaging local suppliers, trades, and the community over the coming months to undertake a major renovation of our depot to ensure money is being invested into the region through this work.

# Project overview

We're modernising the Kununurra depot to extend service life and enhance the customer experience. This will be done by improving the space, operations and use of the depot for our staff and customers.

Horizon Power will be servicing and operating out of the Kununurra region for many years to come, and we remain committed to the town and our customers.

The Kununurra depot refurbishment will include:

1. Public access – redesign to improve customer experience and a more welcoming space with better access to parking.
2. Improved facilities – our 36 year old office, staff room, operations and amenities are due for refurbishment.
3. Office separation – currently, our office spaces do not have designated functions. We're going to separate them out to create an office, operations room, staff room and amenities.
4. Store/workshop connection – we will look to improve safety and integration between our equipment and people where staff exit our office and staff amenities.
5. Welcoming presence – the location on the corner of Messmate Way presents an opportunity to ensure the site provides an appropriate welcome into town. We'll work with the Traditional Owners and community to ensure they play an important role in determining this feature.
6. Technology – our network and communications systems will be upgraded to modern standards to improve efficiency and effectiveness.

## Key information

### Place

Shire of Wyndham East Kimberley.

### Investment

Approximately \$4 million.

### Benefits to our community

- Stimulates the economy with local jobs and procurement opportunities.
- Improved customer service through a dedicated service area and parking.
- New and aesthetically pleasing building and entrance to Kununurra.
- Depot life is extended by more than 20 years.
